GEO. A. KERNICK DIES AT HOME

YOUNG PIONEER OF SOUTHERN NEVADA SUGGUMBS TO THE PNEUMONIA

LANSING RESIGNS FROM RAILROAD EMPLOYEES FOUNDER OF DIVIDE; THE WILSON CABINET EMPLOYEES FATHER OF GOLDFIELD

LANE SAYS HE SHARES GUILT WITH LANSING

(By Associated Press) WASHINGTON, Feb. 14.—Secretary Lane said today he considered himself "just as much responsible" as Secretary Lansing for calling the cabinet meetings during the president's illness. He said Mr. Lansing and himself on the telephone and obtained his approval of the idea before calling the first meeting, adding "presumably he had approval of other cabinet members also."

"We all thought the meetings were a good thing," Lane said.

(By Associated Press) WASHINGTON, Feb. 14.—Rebuke of President Wilson for calling a cabinet meeting during his illness, Secretary Lansing has resigned, the president has accepted his resignation "with appreciation" and Lansing has become the second secretary of state to leave the administration over a disagreement with his chief.

Although the correspondence between Lansing and President Wilson makes the calling of the meeting the incident which led directly to the secretary's resignation, persons on the inside of the administration say that was only an incident and that the reasons for the break lay back over a period of many months and came from fundamental differences of opinion in policy.

Disagreement between the president and Lansing even antedated the entry of the United States into war. The relations existing between the two men almost reached the breaking point in 1917 when Lansing is said to have resigned his post as secretary of state. There will be no more resignations from the cabinet as a result of the Lansing incident, it is said at the White House today.

"I am not going to discuss the Lansing-Wilson controversy," the White House said today.

It is said with a great degree of authority that while the president and Lansing were together in Paris, differences developed. When the president went back to Paris last May and found that during his brief absence the United States had agreed to the American peace terms and league of nations, Lansing and others of the American mission had agreed to the peace terms and league of nations, Lansing and others of the American mission had agreed to the peace terms and league of nations, Lansing and others of the American mission had agreed to the peace terms and league of nations.

WILL WAIT

(By Associated Press) WASHINGTON, Feb. 14.—The railroad employees' representatives have agreed to accept the recommendation of President Wilson to hold wage demands in abeyance temporarily, it was announced today. The president informed the men of his intention to appoint a commission of wage experts to go thoroughly into their claims. One this basis the union leaders agreed to delay further demands for increased wages and call a convention of their general committee to be held in Washington February 23.

Union leaders, in reply to the president's proposal to handle the controversy in this manner, said this did not end the question finally. They made it clear that they desired word from the officials who are in closer touch with the membership than they, the delegates who had been conferring with Director General Hines.

George A. Kernick, president of the Tonopah Hasbrouck, the Kernick Divide, Hasbrouck Divide, Western Divide, Hasbrouck Annex, in the Divide district, died this morning at his home in Alamogordo from the effects of influenza, which developed into pneumonia. While his intimate business associates were aware of the illness of Mr. Kernick, they were encouraged to look for an early recovery from a virus received yesterday to the effect that he had passed the crisis and convalescence was certain.

Deceased was only 45 years of age, nearly half of which were spent in southern Nevada, where he was drawn first by the lure of the Jim Butler discoveries. From the day of his arrival until his untimely death Mr. Kernick was one of the greatest spirits in advancing the interests of Tonopah and Goldfield and did not hesitate to urge his friends to emulate his example by investing their money in developing the mines of this region. Mrs. Kernick and three adopted children are the immediate members of his happy household who will mourn the loss which will be shared by hundreds of men and women in Tonopah and Goldfield who have reason to remember the generosity and charitable impulses of the deceased. Mr. Kernick was possessed of a handsome fortune derived wholly from his investments in this region where he entered without a cent in his pocket. The advent under such circumstances was due to the kindness of Henry C. Cutting, who met Kernick and Claude Smith at Sodaville.

The boys were down to their last two dollars which they spent for a meal of crackers and cheese bought at the store in Sodaville. Cutting took a fancy to the lads and paid them way through to Tonopah where they landed in 1901. Kernick was employed forthwith as stenographer by the firm of Cutting & Forman, then engaged in the brokerage business and soon was busy making a fortune on his own account in the Four Mountain district. He sold a portion of his holdings and secured enough money to go to the new camp of Goldfield where his name became attached to the first local strike in the district on the

Sanderson in which he was interested with H. Stumber and Harry Hamer. After he became interested in the Sanderson, Verdon, Spearhead, Pollock and Golden Horn and was an active partner in the Bonanza, which was absorbed by the Bonanza Consolidated. This lease produced over a million dollars and Kernick then became one of the most progressive promoters of the country.

The domestic life of Mr. and Mrs. Kernick was ideal. The latter took an active interest in every movement of her home and was not afraid of sharing the trials of a mining camp by roughing it side by side with her husband, helping him with the developments and enjoying the bonanza which was theirs. Together they acquired a large lot in Mill town in the Goldfield district and later Mrs. Kernick came up from her comfortable home in Alamogordo to reside in a bungalow at the Hasbrouck mine before there was any thought of a boom developing in that quarter. The couple were not favored with any children of their own but the big heart of Mrs. Kernick yearned for the affection that comes with a family and she adopted three girls.

CONSTRUCTION WORK DOING AT ARROWHEAD

The Arrowhead Signal Silver company has reached the sulphide zone. Since Wednesday night the entire length of the shaft has shown heavy mineralization. Assays are now being made. As one engineer said, "If that was in the Arrowhead it would run 100 ounces." The shaft is down 55 feet. The management did not expect to encounter sulphides under \$5 to 30 feet.

West Arrowhead is sinking its shaft as rapidly as possible and has reached a depth of 30 feet. Latest developments denote an early sulphide zone. This is the opinion of all parties who have been upon the ground. Stockholders and all interested are invited to visit the property.

The Signal Silver has encountered what is declared to be the sulphide zone in quartz, though not in commercial values as yet. The machinery recently purchased is in position and operating to perfection. The entire equipment of machinery was purchased from the Sullivan Machinery company of Tonopah.

Arrowhead Extension Mining company is erecting their gallows frame and installing machinery to add more hoists or reaching the required depth.

The Uranium reports a depth of approximately 55 feet of shaft work to date. The ledge continues on the perpendicular plane with values holding as encountered upon the surface.

Arrowhead Sphinx has completed its roadway in preparation for future means of development. This property is being looked upon with great concern on account of the heavy surface mineralization. The company is completing its financing at the east.

Gold Hill leasers report tapping the ledge on the 50-foot level. In addition to the high value of gold and silver in oxides, small specks of sulphides are in evidence. This is very interesting news, as it has been

\$5.50 MINIMUM IS WAGE CONTRACT FOR YEAR

The last touches were applied last evening to the agreement between the mine and millworkers and the mine operators of the Tonopah-Divide district and this morning every property was back as near its former activity as the shortage of labor would permit. Both men and employees parted the best of friends, assured that for one full year there would be no reason to expect any disruption of the pleasant relations. The original contract was amended slightly in the wording so as to satisfy a few who thought there should be a clearer stipulation on some mooted points.

Coming to the lateness of the hour at which the decision was reached, some of the men were not advised of the amendment and did not report for work at their regular places. Shift bosses who looked up their men reported that every man remaining in Tonopah would be on the job Sunday morning and that within a short time most of the old men who left camp would be back without any exceptions.

The agreement in full, as signed last night by representatives of both sides, will be found on Page Three of this issue.

EMPEROR COULD NOT COME BACK

(By Associated Press) BUDAPEST, Feb. 14.—Circumstantial details have been revealed of a plan by which it is alleged the former Emperor Charles made a final attempt to enter Hungary under the alias of a peasant and re-establish himself on the throne.

Documentary evidence said to be in the hands of the government in Vienna that it had been planned for the ex-emperor to cross the Austro-Hungarian frontier under the name of Kasper Kovacs, accompanied by three persons. Then he was to produce his papers with the expectation that his former subjects would support him.

PUT ON GLOVES WITH HOLLAND

(By Associated Press) HAYEK, Feb. 14.—Holland probably would not be unwilling to accept a police report from the local law to put the former Emperor Wilhelms (father) from the German frontier than he is at the present, it was learned here, but would undoubtedly resent any suggestion as to sending him to a Dutch island or any other place.

NEVADA G. O. P. PLANS ITS WORK

(Special to The Bonanza.) RENO, Feb. 14.—Members of the state republican central committee met here today to determine the time, place and method of selecting delegates to the national convention. General matters in connection with the 1920 campaign were taken up by the committee.

The state committee placed the active management of the campaign in the hands of the executive committee. The committee was authorized to select its own chairman and secretary. The resignation of H. J. Humphreys as chairman was presented and laid on the table. The committee took the opinion that it had no authority to accept Humphreys' resignation as a reason for resigning. Every county in the state was represented at the meeting today with twenty members of the committee present in person.

ELECTRICIANS GO ON STRIKE

(By Associated Press) SAN FRANCISCO, Feb. 14.—The strike of electrical workers continued today in the Pacific coast region. At San Francisco, Sacramento, San Jose and other points it was reported that union officials said all men left their places. A complete strike was declared in many cases and would probably result in a loss of 10 per cent. Telephone companies, however, said the strike was not entirely successful in stopping service in Washington and other cities and only a slight curtailment in service.

MILL ON SIMON THE NEXT MOVE

(By Associated Press) SIMON, Nev., Feb. 14.—The next important move of the company will be to install a Simon mill to experiment with the treatment of the ore. The mill will be built on the Simon property and will be owned by the Simon family. It is expected that the mill will be completed within a few days when it is probable that a decision will be reached as to the best method of treating the ore of the mine.

CONTRACT FOR WORK ON DARMS COAL MINE

Bernard Barnes, accompanied by three men, and two men leave for Goldfield tomorrow with the object of looking over the main shaft of the mine and doing up with a view to making a contract for work on the mine. The men are understood to be the applicants for a mine taxer and the shaft work in Tonopah will come in the contract.

FEDERAL CONTROL MEAT INDUSTRY

WASHINGTON, Feb. 14.—A favorable report was ordered unanimously by the senate committee of 17 members, favoring federal regulation of the meat industry.

USE OF ALCOHOL IN MAKING SCHNAPPS

(Correspondence Associated Press) BERLIN, Jan. 28.—The national economic minister has abolished the order of March 11, 1915, which prohibited the use of alcohol in the manufacture of schnapps and German is again to have the cheap and popular beverage. The prohibition of import of liquor remains in force.

Ireland has failed to get any more in larger quantities than ever before.

APPEAL FROM THE HIERARCHY

(By Associated Press) WASHINGTON, Feb. 14.—For the first time in thirty-five years American Catholic archbishops and bishops are issuing a pastoral letter to their clergy and laity. The letter views the world situation and insists that reconstruction shall proceed on sound principles and not along lines of expediency.

HOLLAND ACCEPTABLE.

(By Associated Press) HAGUE, Feb. 14.—Only slight opposition to Holland's entrance to the league of nations developed when discussion of the question opened in parliament today.

NEWS OF MISSING MAN

K. Y. Berger, who was reported to have been disappeared, was found today by Jack Baker late Tuesday evening when he was found thinking of going south a few days and to supposed to have taken the train that evening. Berger's friends were growing alarmed and this morning a detachment of police went out and searched the hills.

A boy's last words as well as the words of a girl.

The threats of Japanese warriors that the opposite was to occur.

AMERICAN FILMS BARRED BY FINNS AS A LUXURY

(By Associated Press) HELSINKI, Feb. 14.—The financial report because of the exchange rate has prohibited the importation of American motion pictures.

HOG ISLAND YARD SOLD SHIPPING BOARD

(By Associated Press) WASHINGTON, Feb. 14.—An agreement with the American International Shipping company was reached today for the United States shipping board to purchase the land of Hog Island wharf, Philadelphia.
